

INVITATION TO HOLD INVITED SESSION

The Ukrainian Society of Ophthalmologists is pleased to invite International Ophthalmological Societies to convene an invited session at the 15th Ukrainian Ophthalmology Congress to be held in Odesa, Ukraine on 25-27 May 2022. This would mean identifying a theme/topic and inviting three or four speakers. One way to approach this would be to select a session organizer. If you do this, we would be happy to brief him/her on what is involved.

The topic of an Invited session should fall within the scope of the congress and address specific, well defined issues. The duration of the session is 60 minutes and should involve three or four contributors. The session contributors will also be invited to submit their abstracts.

The proposal needs to include:

1. The title of the session
2. The name and contact information of the session organizer
3. A list of participants with affiliations
4. Talk titles

If you are interested in organizing an invited session, select a session topic and solicit potential speakers. Once you have a sufficient number of committed speakers, you can submit your proposal online from now **to January 1, 2022**.

The XV Ukrainian Ophthalmology Congress is planning to run in a hybrid format, i.e. both physically and virtually. The official languages are Ukrainian and English with the simultaneous interpretation provided. We expect over 1,200 delegates. The venue is ODESSA Hotel Complex which is located in Arcadia, a famous resort area of Odessa.

The Ukrainian Society of Ophthalmologists was founded in 1938 by Academician Vladimir P. Filatov. The Society unites ophthalmologists from all over Ukraine. The first All-Ukrainian Ophthalmology Congress took place in December, 1929. Now, Congresses are held every four years, being the largest ophthalmology event in Ukraine.
