17:20-19:20

Hall #2

SYMPOSIUM OF UKRAINIAN VITREORETINAL SOCIETY

PROLIFERATIVE DIABETIC RETINOPATHY (PDR) - APPROACHES TO SURGICAL TREATMENT

Moderator: Umanets M.M.

Presidium: Novitsky I.Y., Sergienko A.M., Zhmuryk D.V.

17.20-17.30 Sirman Y.V. Kyiv, Ukraine

Classification of diabetic proliferative retinopathy: clinical application in vitreoretinal surgery.

17.30-17.45 Novitsky I.Y., Sergienko A.M. Lviv, Vinnytsia, Ukraine

Diabetic macular edema: indications for surgical treatment.

17.45-17.52 Umanets M.M. Odesa, Ukraine

Treatment tactics for vitreous hemorrhage (acute and recurrent). Should we perform early vitrectomy?

17.52-17.57 Sergienko AM, Umanets MM Vinnytsia, Odesa, Ukraine

The use of angiogenesis inhibitors in the phased treatment of patients with PDR.

17.57-18.07 Goryachev D.S. Uzhgorod, Ukraine

Tractional retinal detachment in PDR: choice of surgical tactics.

18.07-18.17 Ruban A.M. Kyiv, Ukraine

Choice of endotamponade method (air, gas, silicone) in surgery of patients with PDR.

18.17-18.27 Zhmuryk D.V. Kyiv, Ukraine

PFOS as a short-term endotamponade in the surgery of patients with PDR.

18.27-18.39 Korol A.R., Umanets M.M. Odesa, Ukraine

Principles of perioperative and intraoperative laser photocoagulation of the retina in PDR.

18.39-18.44 Levytska G.V., Ievtushenko A.S. Odesa, Ukraine

Postoperative transient hemophthalmia (main causes, treatment tactics).

18.44-18.54 Lytvynchuk L.M. Marburg, Germany

Complications after vitrectomy (neovascular glaucoma). Tactics of management.

18.54-19.20 Discussion
