

2026 FILATOV MEMORIAL LECTURES

THURSDAY, MAY 14, 2026

HALL No. 1 (PLENARY SESSIONS)

<p>09:00-10:00</p>	<p>CEREMONIAL OPENING SESSION</p> <p>2026 FILATOV MEMORIAL LECTURE</p> <p><i>Chairpersons: N.V. Pasychnikova, G.I. Drozhzhyna</i></p> <p>Update on European corneal banking and transplantation – Jesper Hjortdal, Aarhus, Denmark</p> <p>Filatov medal award ceremony</p>
<p>10:00-12:00</p>	<p>DISEASES OF THE CORNEA</p> <p><i>Moderator: G.I. Drozhzhyna</i></p> <p><i>Chairpersons: N.V. Pasechnikova, A.I. Kovalyov</i></p> <p>Filatov school of corneal transplantation today – G.I. Drozhzhyna, K.V. Sereda, L.F. Troichenko, M.A. Grozova, I.V. Balan, O.S. Pyrozhkova, Odesa, Ukraine</p> <p>Modern Approaches to the Diagnosis and Treatment of Bacterial Keratitis: From Antibiotic Therapy to Therapeutic Keratoplasty - Sereda K.V., Drozhzhina G.I. (Odessa, Ukraine)</p> <p>Atraumatic central descemetorhexis technique for central Fuchs endothelial dystrophy – I.A. Kovalev, I.V. Shargorodska, O.S. Averianova, N.I. Molchaniuk, A.I. Kovalev, Kyiv, Ukraine</p> <p>Current Aspects of Diagnosis and Clinical-Psychological Factors in the Progression of Keratoconus - L.F. Troichenko, G.I. Drozhzhina, Y.M. Rodina (Odessa, Ukraine)</p> <p>Secondary corneal lesions in lash pathology as indication for keratoplasty: two cases – M.V. Gryga, V.M. Serdiuk, S.B. Ustymenko, Y.V. Getman, Dnipro, Ukraine</p> <p>An Unusual Onset of Herpes Zoster - T.V. Zhmud (Vinnytsia, Ukraine)</p> <p>Surface reconstruction in complex cases – Miriam Barbany, Spain</p>
<p>12:10-13:10</p>	<p>Satellite symposium</p>
<p>13:10-13:50</p>	<p>LUNCH AND EXHIBITION BREAK</p>
<p>13:50-14:50</p>	<p>Satellite symposium</p>

<p>15:00-16:30</p>	<p>UVEITIDES</p> <p><i>Moderator: O.V. Zborovska</i></p> <p>Ocular toxoplasmosis – Justine Smith, Australia</p> <p>Choriocapillaritis: One of the subgroups of non-infectious choroiditis replacing white dot syndromes – Carl P. Herbort Jr, <i>Lausanne, Switzerland</i></p> <p>Granulomatous uveitis – O.V. Zborovska, <i>Odesa, Ukraine</i></p> <p>Inflammation post Anti-VEGF injection – Ioannis Papasavas, <i>Lausanne, Switzerland</i></p> <p>Discussion</p>
<p>16.40-18:10</p>	<p>3rd FILATOV FILM FESTIVAL</p> <p>KERATOPLASTY IN PATIENTS WITH COMORBID CONDITIONS</p> <p><i>Moderator: Drozhzhyna G.I.</i></p> <p>Experts: N.V. Pasychnikova, V. Vasileva, Harminder Dua, Klaus Kursiefen, N.A. Ulianova</p> <p>Successful penetrating femtokeratoplasty in an eye of a patient with diabetes mellitus, neovascularization of the iris, and secondary neovascular glaucoma – G. Parkhomenko, M. Bilyy, <i>Kyiv, Ukraine</i></p> <p>Tectonic penetrating microsurgical biological implantation for corneal fistula – N.F. Bobrova, G.M. Dembovetska, O.D. Dovhan, <i>Odesa, Ukraine</i></p> <p>Argentinian flag syndrome as an intraoperative complication of DALK – V.M. Serdiuk, A.V. Serdiuk, <i>Dnipro, Ukraine</i></p> <p>Keratoplasty under conditions of terminal renal failure – K.V. Sereda, G.I. Drozhzhyna, <i>Odesa, Ukraine</i></p> <p>Keratoplasty in pole-to-pole surgery in severe combat eye injury – I.Y. Novytskyy, <i>Lviv, Ukraine</i></p>

HALL No. 2 (Panel Discussions)

<p>10:00-12:00</p>	<p>EYE INJURIES</p> <p><i>Moderator: N.A. Ulianova</i></p> <p><i>Panelists: O.S. Sidak-Petretska, I.Y. Novytskyy, D.V. Zhmuryk, I.I. Khramov, D.M. Pohorilyy, I.O. Kolomiets</i></p> <p>Introduction</p> <p>Presentation of new Clinical Guidelines and Standard of Care for Combat Eye Injuries – N. A. Ulianova, <i>Odesa, Ukraine</i></p> <p>Current issues of registering and a new coding system for wounds and surgical interventions to treat combat eye injuries – I.I. Khramov, <i>Kyiv, Ukraine</i></p> <p>Discussion by all the panelists</p> <p>Block I. Initial wound debridement (IWD) in severe blast eye injury: major principles, its priority in a bilateral injury, strategy in the presence of IOFB, and prevention of endophthalmitis</p>
---------------------------	---

	<p>1. Gold standard and principles of IWD for eye wounds – Y.A. Chumakov, <i>Odesa, Ukraine</i></p> <p>2. Common errors when performing IWD for corneal and scleral wounds – N.I. Bondar, <i>Odesa, Ukraine</i></p> <p>Block II. Surgical reconstruction of the iris-lens diaphragm: time frame for performing, iridoplasty techniques, and IOL selection</p> <p>1. Approaches to phaco surgery and iridoplasty in severe combined injuries – I.O. Kolomiets, <i>Dnipro, Ukraine</i></p> <p>2. Current issues of iris prosthetics – D.V. Zhmuryk, <i>Kyiv, Ukraine</i></p> <p>Block III. Vitrectomy in severe combat eye injury: time frame for performing, strategy in the presence of an opaque cornea, and PVR prevention</p> <p>1. Temporary keratoprosthesis as a required option in surgery for severe ocular wounds – O.S. Sidak-Petretska, <i>Odesa, Ukraine</i></p> <p>2. Potential of vitreoretinal endoscope in reconstructive trauma surgery – N.A. Ulianova, <i>Odesa, Ukraine</i></p> <p>Block IV. Minimum and maximum IOP values in the post-traumatic period: from hypotony to refractory secondary glaucoma</p> <p>1. Hypotony secondary to eye trauma: causes and sequelae – I.V. Iakymenko, <i>Odesa, Ukraine</i></p> <p>2. Issues of adequately managing glaucoma secondary to eye trauma – Y.O. Tatarina, <i>Odesa, Ukraine</i></p> <p>Conclusions and closing remarks by the moderator, panelists and attendees</p>
13:10-13:50	LUNCH AND EXHIBITION BREAK
15:00-16:30	<p>CENTRAL SEROUS CHORIORETINOPATHY (CSCR)</p> <p><i>Moderator:</i> A.R. Korol</p> <p><i>Panelists:</i> I.O. Nasinnyk, T.B. Kustryn, O.G. Parkhomenko</p> <p>Classification and diagnosis of CSCR – A.R. Korol, <i>Odesa, Ukraine</i></p> <p>Medical therapy – A.R. Korol, <i>Odesa, Ukraine</i></p> <p>Laser treatment for CSCR – O.G. Parkhomenko, <i>Kyiv, Ukraine</i></p> <p>Photodynamic therapy – I.O. Nasinnyk, <i>Odesa, Ukraine</i></p> <p>Angiogenesis inhibitors: when and how they should be used – T.B. Kustryn, <i>Odesa, Ukraine</i></p>
16:40-17:40	<p>UKRAINIAN GLAUCOMA SOCIETY SYMPOSIUM</p> <p>NEW ASPECTS OF GLAUCOMA IN UKRAINE</p> <p><i>Moderator:</i> N.I. Kapshuk</p> <p><i>Chairpersons:</i> Z.F. Veselovska, I.M. Bezkorovina</p> <p>Terminology and Guidelines for Glaucoma, 6th edition: this is important! – Z.F. Veselovska, N.M. Veselovska, <i>Kyiv, Ukraine</i></p>

	<p>Glaucoma surgery in the context of the progression of optic neuropathy – I.M. Bezkorovaina, <i>Poltava, Ukraine</i></p> <p>What a family physician should do with a glaucoma suspect – N.V. Konovalova, <i>Odesa, Ukraine</i></p> <p>Challenges of managing glaucoma patients in the time of war – V.O. Melnyk, <i>Kyiv, Ukraine</i></p> <p>Lensectomy as a tool for improving intraoperative visualization in surgery for combat eye injury – N.I. Kapshuk, V. Sosnytskyi, L. Khrystych, <i>Vinnytsia, Ukraine</i></p>
--	--

Hall No. 3 (Case-Marathon/Free-papers)

<p>09:30-11:00</p>	<p>RETINOPATHY OF PREMATURITY</p> <p><i>Moderator: S.V. Katsan</i></p> <p>Organization of eye care for children with retinopathy of prematurity in the southern region of Ukraine – S.V. Katsan, O.S. Budivska, O.O. Artamonov, A.A. Peshkova, <i>Odesa, Ukraine</i></p> <p>Providing eye care for premature infants: the experience of Pediatric Ophthalmology and Eye Microsurgery Department, Okhmatdyt hospital, in 2021-2025 – Y.V. Barinov, O.M. Zabrodska, D.I. Chugaiev, <i>Kyiv, Ukraine</i></p> <p>Providing care for premature infants with retinopathy of prematurity at the Western Ukrainian Center: our pathway and current priorities – I.I. Muzychka, D.O. Dobranskyi, Z.V. Salabai, O.V. Novikova, I.V. Dubrovna, <i>Lviv, Ukraine</i></p> <p>Retinopathy of prematurity under today's conditions: barriers, decisions and experience of the Dnipro Regional Medical Center for Family Healthcare – I.A. Likhachiova, O.I. Obolonska, <i>Dnipro, Ukraine</i></p> <p>Organization of eye disease diagnosis service and eye care for children with retinopathy of prematurity in the city of Vinnytsia and Vinnytsia region – O.M. Makovska, K.B. Raichyba, <i>Vinnytsia, Ukraine</i></p> <p>Retinopathy of prematurity under current conditions: diagnosis and management strategy as viewed through the lens of our clinical experience – O.P. Demydchuk-Dovgan, <i>Ternopil, Ukraine</i></p> <p>Clinical experience of observing and managing infants with retinopathy of prematurity in Ivano-Frankivsk region – T.O. Havrylyshyn, <i>Ivano-Frankivsk, Ukraine</i></p> <p>Organization of retinopathy of prematurity screening in Rivne: results and interdisciplinary cooperation – Ovseychuk I.I., <i>Rivne, Ukraine</i></p> <p>Retinopathy of prematurity: epidemiological analysis for 2021-2025 at the Perinatal Center of the Sklifosovskyi Poltava Regional Clinical Hospital – V.A. Lytvynenko, V.L. Vashchenko, A.I. Bielor, N.A. Lytvynenko, <i>Poltava, Ukraine</i></p> <p>Our practical experience in organizing eye care service for children with retinopathy of prematurity (a short film) – S.V. Katsan, O.S. Budivska, O.O. Artamonov, A.A. Peshkova, <i>Odesa, Ukraine</i></p>
<p>11:10-12:10</p>	<p>MEETING OF THE UKRAINIAN ASSOCIATION OF SPECIALISTS IN OCULOPLASTICS AND OCULAR PROSTHETICS</p> <p>MULTIDICIPLINARY APPROACH IN OCULOPLASTIC SURGERY</p> <p><i>Moderator: O.V. Petrenko</i></p>

	<p>CAD/CAM-assisted management of midfacial defects and malformations – O.S. Vasyliev, <i>Kyiv, Ukraine</i></p> <p>Використання методів ком'ютерного моделювання та CAD/CAM технологій у хірургічному лікуванні ендокринної орбітопатії - Слободянюк А. С. (Київ, Україна)</p> <p>Utilizing computer modeling and CAD/CAM tools in the surgical treatment of endocrine orbitopathy – A.S. Slobodianiuk, <i>Kyiv, Ukraine</i></p> <p>Experience of replacing the temporomandibular joint in mine blast injury – R.O. Terletskyi, <i>Kyiv, Ukraine</i></p> <p>Today's challenges to reconstructive periorbital surgery – A.A. Kovalev, <i>Kyiv, Ukraine</i></p> <p>Eyelid reconstruction for mine blast injury: a case report – Borkhalenko M.V., <i>Kyiv, Ukraine</i></p> <p>Non-surgical removal of benign periorbital lesions using Jett Plasma Lift Medical: ophthalmologist's clinical experience – Leichenko Y.V., <i>Kyiv, Ukraine</i></p>
<p>15:00-16:30</p>	<p>CURIOUS PERIDIATRIC OPHTHALMOLOGY CASE REPORTS</p> <p><i>Moderator:</i> N.F. Bobrova</p> <p><i>Experts:</i> S.O. Rykov, A.M. Sergienko, T.A. Sorochynska</p> <p>Pitfalls in the diagnosis of juvenile glaucoma – S.O. Rykov, I.V. Shargorodska, O.S. Sas, <i>Kyiv, Ukraine</i></p> <p>Congenital optic nerve and retinal disorders: what is the diagnosis and what is the treatment? – S.A. Tronina, <i>Odesa, Ukraine</i></p> <p>Combined congenital and acquired eye disorders: what is the diagnosis and what is the surgical management? A.M. Sergienko, <i>Vinnytsia, Ukraine</i></p> <p>Unusual conjunctival and eyelid inflammation: what is it? – K.S. Marko, <i>Odesa, Ukraine</i></p> <p>Cornel opacity with interlayer content: what is the diagnosis and what should be the management strategy? – T.V. Romanova, <i>Odesa, Ukraine</i></p> <p>A retinoblastoma refractory to a combination of systemic and intravitreal chemotherapy. What this tumor is and what can be done to manage its progression? – T.A. Sorochynska, <i>Odesa, Ukraine</i></p> <p>One shot causing three orbital foreign bodies. How can it take place? – Dovhan O.D., <i>Odesa, Ukraine</i></p> <p>Congenital pupil dislocation and obscuration. What is the diagnosis and what should be done to manage this condition? – N.F. Bobrova, <i>Odesa, Ukraine</i></p> <p>Closing remarks</p>
<p>16:40-18:10</p>	<p>NEUROOPHTHALMOLOGICAL SYMPOSIUM</p> <p>UKRAINIAN NEUROOPHTHALMOLOGICAL ASSOCIATION SYMPOSIUM</p> <p><i>Moderator:</i> V.A. Vasyuta</p> <p>Neuritis vs non-neuritis: difficulties of neuroophthalmological diagnosis – V.A. Vasyuta, <i>Kyiv, Ukraine</i></p>

	<p>Rehabilitation of patients with optic neuropathy secondary to mild traumatic brain injury – N.V. Konovalova, <i>Odesa, Ukraine</i></p> <p>Neuroprotection with a combination of protective agents in glaucomatous optic neuropathy: neural network and analysis of clinical response – N.V. Guzun, <i>Odesa, Ukraine</i></p> <p>Ophthalmological signs and symptoms of migraine – Y.M. Maliovana, <i>Kyiv, Ukraine</i></p> <p>Determining the prognostic criteria for reversibility of visual abnormalities in optic pathway compression: ROC analysis of morphometric and functional markers – K.S. Iegorova, <i>Kyiv, Ukraine</i></p> <p>Visual sequelae of mine blast injury: from the OCT-based structure to rehabilitation – M.S. Kyslitska, <i>Kyiv, Ukraine</i></p>

FRIDAY, MAY 15, 2026

HALL No. 1 (PLENARY SESSIONS)

08:00-09:00	<p>FREE – PAPERS</p> <p><i>Moderator:</i> N.A. Ulianova</p> <p><i>Chairpersons:</i> I.Y. Novytskyy, Y.V. Sirman</p> <p>Challenging phaco cases – I.Y. Novytskyy, <i>Lviv, Ukraine</i></p> <p>Features of phacoemulsification in patients with pseudoexfoliation syndrome – O.O. Suprun, M.V. Bryn, Y.O. Tatarina, K.I. Kovaliova, N.A. Ulianova, <i>Odesa, Ukraine</i></p> <p>The role of preoperative evaluation of the corneal endothelium in the selection of cataract surgery strategy – Y.V. Sirman, K.V. Kovalchuk, <i>Odesa, Ukraine</i></p> <p>Ab interno approach to surgical treatment of various types of cataract – I.Y. Novytskyy, <i>Lviv, Ukraine</i></p> <p>Study in the prevalence of ocular changes in the service members of the Ukrainian Defense Forces – P. Fedirko, T. Babenko, R. Dorichevska, <i>Kyiv, Ukraine</i></p> <p>Capsulorhexis Rim Anatomy and Stability: Manual vs. Femtosecond Laser Surgery - P.B. Henrich (Basel, Switzerland)</p>
09:00-10:00	<p>MEETING OF THE UKRAINIAN SOCIETY OF OPHTHALMOLOGISTS</p> <p><i>Moderator:</i> S.V. Katsan</p> <p><i>Chairpersons:</i> N.V. Pasechnikova, O.S. Zadorozhny, N.A. Ulyanova</p> <p>Awards Ceremony in Honor of the 90th Anniversary of the Filatov Institute</p> <p>Report on the TOU's Activities in 2025 and Plans for 2026–2027 – S.V. Katsan (Odessa, Ukraine)</p> <p>Presentation of New Clinical Guidelines and the Standard of Medical Care “Combat Eye Injury” - N.A. Ulyanova (Odessa, Ukraine)</p>

	<p>Presentation of work on the protocol for diabetic retinopathy - Korol A.R. (Odessa, Ukraine)</p> <p>Announcement of a collective monograph - Zadorozhny O.S. (Odessa, Ukraine)</p>
10:10-12:10	<p>FUNDAMENTAL SCIENCE</p> <p><i>Moderator: O.S. Zadorozhnyy</i></p> <p>Molecular and genetic factors in monogenic and multifactorial forms of corneal disease (25 years of studies in Ukraine) – G.I. Drozhzhyna, L.A. Lifshyts, V.M. Pampukha, K.V. Sereda, O.V. Gorodna, <i>Odesa, Kyiv, Ukraine</i></p> <p>Synthetic implant materials in orbital and ocular/orbital reconstructive surgery – A.P. Maletskyy, <i>Odesa, Ukraine</i></p> <p>Irrigation fluid temperature regulating during vitreoretinal surgery using thermoelectric heating and cooling – O.S. Zadorozhnyy, R.R. Kobylanskyi, V.V. Lysko, M.M. Umanets, I.P. Dovgan, N.V. Pasychnikova, <i>Odesa, Ukraine</i></p> <p>SOE Lecture: Electrothermo-adhesion for retinopexy using a small-gauge welding probe: an experimental study – Ye.A. Chumakov, <i>Odesa, Ukraine</i></p> <p>The Local Renin-Angiotensin System of the Eye as a Promising Therapeutic Target in Ophthalmic Diseases - I. M. Mikheytsya (Odessa, Ukraine)</p> <p>Approaches to the standardization and improvement of biogenic stimulants under conditions of current evidence-based medicine, best practices and process validation. The history, future, and current studies on tissue preparation production processes – G.S. Fesiunova, <i>Odesa, Ukraine</i></p> <p>Lamina cribrosa as a key component of the biomechanics of glaucomatous optic neuropathy – I.V. Iakimenko, K.S. Shakun, N.A. Ulianova, <i>Odesa, Ukraine</i></p> <p>Vascular and Functional Changes in Modeled Glaucoma Under Chronic Stress Conditions - Kuznetsov M.K. (Odessa, Ukraine)</p> <p>The Effect of an ACE Inhibitor on Metabolic Parameters of the Eye in Experimental Glaucoma - Storozhuk N.V. (Odessa, Ukraine)</p> <p>Selective transcleral cyclophotocoagulation: modeling the balance between efficiency and safety in neovascular glaucoma – O.V. Guzun, O.S. Zadorozhnyy, P.I. Osadchuk, V.V. Vychuzhanin, A.D. Khomenko, <i>Odesa, Ukraine</i></p> <p>577-nm subthreshold micropulse laser coagulation in patients with chronic central serous chorioretinopathy under conditions of constant stress – T.B. Kustryn, O.S. Zadorozhnyy, I.O. Nasinnyk, V.V. Shcherbakova, A.R. Korol, <i>Odesa, Ukraine</i></p> <p>Some features of the course of diabetic retinopathy in rabbit eyes and their possible cause – O.E. Dorokhova, L.I. Samoilenko, E.V. Maltsev, O.V. Zborovska, <i>Odesa, Ukraine</i></p>
12:20-13:20	SATELLITE SYMPOSIUM
13:20-13:50	LUNCH AND EXHIBITION BREAK
13:50-14:50	<p>MISDIAGNOSIS AND MISTREATMENT</p> <p><i>Moderator: A.R. Korol</i></p>

	<p>CSCR and hyperfluorescence: establishing a differential diagnosis of leakage versus subretinal neovascularization – A.R. Korol, <i>Odesa, Ukraine</i></p> <p>Mistreatment of patients with uveitis – O.E. Dorokhova, <i>Odesa, Ukraine</i></p> <p>Anterior and Posterior Segment CT as a Tool for Identifying Diagnostic Errors - Lutsenko N.S., Rudicheva O.A. (<i>Zaporizhzhia, Ukraine</i>)</p>
<p>15:00-17:00</p>	<p>SESSION OF THE AMERICAN ASSOCIATION OF OPHTHALMOLOGY (AAO)</p> <p>EYE TRAUMA AND RECONSTRUCTIVE SURGERY</p> <p><i>Moderator: Grant A. Justin, MD</i></p> <p>Introduction – Grant A. Justin, MD</p> <p>Anterior Segment Trauma Rehabilitation – Kristen M. Hawthorne, MD</p> <p>Traumatic Glaucoma Rehabilitation – David Fleischman, MD, MS</p> <p>Posterior Segment Rehabilitation – Brittany E. Powell, MD</p> <p>Oculoplastics Trauma Rehabilitation – Vladimir S. Yakopson, MD</p> <p>Psychiatric Impact of Vision Loss and Rehabilitation – Ethan Lester, PhD</p> <p>Q&A</p>

HALL No. 2 (Panel discussions)

<p>08:00-09:00</p>	<p>FREE-PAPERS</p> <p>Conjunctival/Tenoplasty in the treatment of corneal ulcers developing following burn injury – P.O. Kostenko, <i>Odesa, Ukraine</i></p> <p>Provision of timely eye care for a thermal burn injury of the eye and skin surface: a case report – I.V. Balan, L.F. Troichenko, G.I. Drozhzhyna, <i>Odesa, Ukraine</i></p> <p>Infectious corneal ulceration in a contact lens user in the presence of systemic retinoid therapy – M.O. Grozova, G.I. Drozhzhyna, <i>Odesa, Ukraine</i></p> <p>Analysis of cornea bioimplants of the first Ukrainian corneal bank at SI “Bioimplant”, Ministry of Health of Ukraine – I.Ie. Aleshchenko, Y.V. Naboka, O.V. Babenko, V.V. Mykhailova, A.O. Zhmakov, <i>Kyiv, Ukraine</i></p> <p>More than just an edema: covert threats from chemosis – O.S. Pavliuchenko, O.P. Muzhychuk, P.A. Bezditko, <i>Kharkiv, Ukraine</i></p> <p>Ocular rosacea: difficult to diagnose and challenging to treat – I.V. Deriapa, O.I. Cheverda, <i>Kyiv, Ukraine</i></p>
---------------------------	---

<p>09:00-11:00</p>	<p>SECONDARY CATARACT IN ADULTS AND CHILDREN (A PANEL DISCUSSION)</p> <p><i>Moderator:</i> N.F. Bobrova</p> <p><i>Panelists:</i> A.E. Korol, D.G. Zhaboyedov, V.O. Melnyck</p> <p>Clinical manifestations of secondary cataract in pseudophakic adults – I.O. Nasinnyk, Odesa, Ukraine</p> <p>Clinical manifestations of secondary cataract in pseudophakic and aphakic children – K.S. Marko, Odesa, Ukraine</p> <p>My experience of secondary cataract prevention in adults – V.O. Melnyk, Kyiv, Ukraine</p> <p><i>Dovhan O.D., Odesa, Ukraine</i></p> <p>Whether primary posterior capsulorhexis prevents secondary cataract in children –</p> <p>Our long-time experience with the BIL IOL for efficient prevention of secondary cataract in children – T.V. Romanova, Odesa, Ukraine</p> <p>Laser interventions for secondary cataract in adults – A.R. Korol, Odesa, Ukraine</p> <p>Functional outcomes of laser versus surgical capsulotomy – R.O. Pavlenko, D.G. Zhaboyedov, Kyiv, Ukraine</p> <p>Surgical removal of secondary cataract in children – N.F. Bobrova, Odesa, Ukraine</p> <p>Discussion on the management and treatment of secondary cataract</p> <p>A) Experience and opinions of panelists</p> <p>B) Indications should be tailored for each individual patient – N.F. Bobrova, A.R. Korol</p>
<p>11.10-12.10</p>	<p>SURGICAL RECONSTRUCTION FOR PALPEBRAL, ORBITAL AND PERIORBITAL TRAUMAS AND TUMORS</p> <p><i>Moderator:</i> A.P. Maletskyy</p> <p><i>Chairpersons:</i> S.A. Tronina, O.V. Petrenko</p> <p>Palpebral, orbital and periorbital anatomic and functional abnormalities secondary to trauma or tumor resection and methods for repairing them – A.P. Maletskyy, Odesa, Ukraine</p> <p>Orbital inferior wall fractures in children: surgical recovery strategy and options – N.F. Bobrova, S.A. Tronina, Odesa, Ukraine</p>

	<p>How to choose a correct approach for orbital reconstruction with customized implants or standard plates for extensive wounds? – Gupanova M.I., Otchuk O.O., <i>Kharkiv, Ukraine</i></p> <p>Long-term post-enucleation outcomes with regard to the motility and cosmesis of the stump customized using a special scheme – N.V. Kryvetska, I.V. Komarovska, K.Y. Hrizhymalska, <i>Vinnytsia, Ukraine</i></p> <p>Preventing excessive cicatrization in dacryocystorhinostomy: clinical observations and inventive methods – N.G. Zagorodnia, K.O. Kostrovska, I.O. Poplavska, O.O. Bezdenezhna, L.E. Sarzhevskya, <i>Zaporizhzhia, Ukraine</i></p>
<p>13:50-14:50</p>	<p>OCULAR ONCOLOGY</p> <p><i>Moderator:</i> A.P. Maletskyy</p> <p><i>Chairpersons:</i> O.S. Buiko, I.O. Safronenkova, S.I. Poliakov</p> <p>Our experience with treating T2-3a malignant palpebral epithelial tumors – I.O. Safronenkova, O.S. Buiko, V.A. Ielagina, <i>Odesa, Ukraine</i></p> <p>Atypical course of conjunctival carcinoma: a case report – V.A. Ielagina, I.O. Safronenkova, O.S. Buiko, O.V. Artiomov, <i>Odesa, Ukraine</i></p> <p>Clinical manifestations of retinoblastoma recurrence after organ-preserving treatment – N.F. Bobrova, T.A. Sorochnytska, T.V. Romanova, E.V. Varshanidze, <i>Odesa, Ukraine</i></p> <p>Patterns in the formation of intraocular mushroom-shaped tumors and histomorphological evidence of these patterns – O.V. Artiomov, <i>Odesa, Ukraine</i></p> <p>Computed tomography and magnetic resonance imaging in the diagnosis of lacrimal gland tumors – S.I. Poliakov, I.V. Tsukanova, D.R. Strashenko, <i>Odesa, Ukraine</i></p> <p>Gliomas of the orbital optic nerve in children: features of the diagnosis and surgical treatment – N.F. Bobrova, S.A. Tronina, T.A. Sorochnytska, <i>Odesa, Ukraine</i></p> <p>Results of using cross-linked polyurethane with biologically active substances in patients with orbital and ocular/orbital disorders – A.P. Maletskyy, <i>Odesa, Ukraine</i></p>
<p>15:00-17:00</p>	<p>DEBATABLE ISSUES OF NEUROOPHTHALMOLOGY</p> <p><i>Moderator:</i> I.M. Boichuk</p> <p>Oculomotor nerve lesions: important facts for the ophthalmologist – I.D. Skrypnichenko, <i>Kyiv, Ukraine</i></p> <p>Combination subcortical lesions of the oculomotor and other cranial nerves – N.M. Bushuieva, S.B. Slobodanyk, Shakir Dukhayer, <i>Odesa, Ukraine</i></p> <p>Diagnostic and treatment features of internuclear ophthalmoplegia – I.M. Boichuk, <i>Odesa, Ukraine</i></p> <p>Changes in functional and morphometric characteristics in patients with non-arterial anterior ischemic optic neuropathy – M.Iu. Chaban, N.I. Khramenko, N.V. Konovalova, O.V. Zborovska, S.B. Slobodanyk, <i>Odesa, Ukraine</i></p> <p>Molecular mechanisms of retinal and optic nerve degeneration in diabetes mellitus – R.L. Skrypnyk, <i>Kyiv, Ukraine</i></p> <p>Clinical and diagnostic features of ocular manifestations of demyelinating disorders – I.V. Gavryliak, <i>Kyiv, Ukraine</i></p>

	<p>Optic nerve disease of viral etiology – N.V. Konovalova, <i>Odesa, Ukraine</i></p> <p>Neuroophthalmological aspects of idiopathic intracranial hypertension – K.S. Iegorova, <i>Kyiv, Ukraine</i></p> <p>Visual phenomena of migraine: what should be known – N.A. Tykhonchuk, <i>Kyiv, Ukraine</i></p> <p>Acute bilateral leukemic optic neuropathy as a debut of isolated meningeal B-ALL recurrence secondary to allogeneic hematopoietic stem cell transplantation: partial vision recovery in a single functional eye: a case report – N.M.
